DETAILED ACTION

Allowable Subject Matter

1. Claims 1-14 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or fairly suggest a device for carrying out a surface treatment of a substrate under vacuum, comprising: a housing including at least two chambers communicating with at least one vacuum source, at least one of the chambers being designed to serve as a vacuum lock chamber which can be opened to atmosphere and in which the substrate can be introduced and removed to access the remaining chambers, wherein the housing includes an upper housing half and a lower housing half peripherally joined by a flexible sealing member, at least one of the housing halves having at least two symmetrically distributed recesses, which are intended to constitute at least some of the chambers, together with a revolver pivotally mounted between the housing halves and including revolver recesses in which the substrate is intended to be placed, wherein outer walls of the upper and lower housing halves under an action of a force-generating member are designed to be moved from a first position in which the upper and lower housing halves, through tight, sealing contact with the revolver, prevent rotation thereof, to a second position in which the upper and lower housing halves are separated from the revolver in order to permit rotation of the latter to predefined positions, and wherein at least one of the revolver recesses at least partially coincides with one of the chambers, allowing the substrate to be moved between the chambers.

Art Unit: 1716

Further, no other prior art was located that fairly suggested the claimed invention in whole or in part, along with the requisite motivation for combination, to anticipate or render the claimed invention obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's clarifying amendments filed 23 February, with respect to which part of the upper and lower housing halves (i.e. outer walls thereof, rather than an inner structure thereof) overcome the previous rejections based on the previously relied upon prior art and have therefore been withdrawn.
